Urban Development

**ABDULLAHI
TIJJANI GWARZO**
Minister of State, Housing &
Urban Development

**DR. MARCUS O.
OGUNBIYI**
Permanent Secretary,
Federal Ministry of Housing &
Urban Development

NATIONAL URBAN RENEWAL AND SLUM UPGRADE PROGRAMME (NURSUP)

The National Urban Renewal and Slum Upgrade Programme (NURSUP) is a transformative initiative aimed at revitalizing urban areas and improving the living conditions of low-income communities across Nigeria. The program focuses on comprehensive interventions to upgrade slums, enhance infrastructure, and promote sustainable urban development. Key components include the upgrading of basic services such as roads, water, sanitation, and electricity, and the development of public spaces.

NURSUP seeks to foster social inclusion, economic growth, and environmental sustainability by integrating slum areas into the broader urban fabric. By addressing the challenges of urbanization, NURSUP aims to create livable, and inclusive cities that contribute to the overall well-being and prosperity of their inhabitants.

NATIONAL URBAN RENEWAL AND SLUM UPGRADE PROGRAMME (NURSUP)

Under Phase 1 that is being funded from the N50billion 2023 Supplementary Budget, the Ministry has ongoing and completed projects in a total of 26 sites nationwide.

This includes four (4) sites in each of the six geopolitical zones of the country totaling twenty-four (24) and two (2) in the FCT.

The key services being provided at the identified sites include water supply, solar streetlights, rehabilitation of access roads, construction of drainages and waste management, resurfacing and rehabilitation of residential and public buildings, and sanitation services amongst others.
